This Syllabus is brought to you for free and open access by the NJIT Syllabi at Digital Commons @ NJIT. It has been accepted for inclusion in Physics Syllabi by an authorized administrator of Digital Commons @ NJIT. For more information, please contact digitalcommons@njit.edu.

Course Outline
-Physics 102 Sections 001 and 003 -- Fall 2019

Dr. George Georgiou
207 Microelectronics (in 2nd floor Summit Avenue bridge between ECE and FMH)
973-596-5690 (office)
georgiou@njit.edu (preferred method of contact)

Physics 102_001
Tuesday 2:30-3:50 (CULM. LECT. 2) Friday 8:30-9:40 (Tier. 107)

Physics 102_003
Tuesday 2:30-3:50 (CULM. LECT. 2) Friday 1-2:20 (Culm. 110)

Office hours: Tuesday 1-2, Tuesday 4-5, Friday 10-11 or by appointment

Lecture notes will be sent out by e-mail after class.

Pre- and Co-requisite Courses

Prerequisite: Satisfactory completion of two high school mathematics courses and two high school science courses.

Laboratory - Physics 102A

The laboratory component of the course is Phys 102A. This laboratory course may be optional for your major; confirm it with your department. If it is required for your major, it must be taken concurrently unless you have previously taken and passed Phys 102A. The grading for the laboratory is separate from the course/recitation (Phys 102) and the grades are given by the laboratory instructors. Latest edition of **Lab manual "Physics 102A Laboratory Manual"** can be purchased from NJIT Bookstore.

YOU MUST REGISTER FOR THE LECTURE/RECITATION (Phys 102) AND THE LABORATORY COURSE (Phys 102A) SEPARATELY. WITHDRAWAL FROM ANY OF THESE WILL CAUSE A SIMULTANEOUS WITHDRAWAL FROM ALL Phys 102 COURSES.

Course Materials

Textbook:

Physics - Principles with Applications, 7th ed. by Giancoli (Publisher: Pearson)

Mastering Physics Online Homework System:

Be sure that your textbook is sold bundled with a Mastering Physics student access code card. You can also buy the student access code card separately either from NJIT bookstore or online. Homework assignments will be posted on-line. Students login, download and solve the assigned problems, and submit answers to the automated grading system. Instruction can be found on the student access code card. **To enroll for this section of the course, use course ID "MPGEORGIOU102s001" for section 001 or use course ID "MPGEORGIOU102s003" for section 003.**

I will not use i-Clickers.

NJIT email will be routinely used for announcements and to distribute material. Be sure check the NJIT email every day.

Attendance will be taken periodically by an **lecture quiz** which will be part of your grade (7% — see grading later). **I will not use i-Clickers.** *Attendance and doing more homework problems than those assigned are an important part of being successful in this course.*

Attendance

Attendance at lectures and recitations is mandatory; it may constitute a portion of the final grade. Missing more than three lectures will be reported to the Dean of Freshman Studies throughout the semester and can result in failing the course. Students with absences need to discuss their extenuating circumstances for missing the classes with the Dean.

Exams

There will be three Common Exams and a Final Exam during the term. The exam schedule is:

Common Exam 1: Wednesday, October 9, 4:15 – 5:45 pm

Common Exam 2: Wednesday, November 6, 4:15 – 5:45 pm

Common Exam 3: Wednesday, December 4, 4:15 – 5:45 pm

Final Exam: To be announced

There will be no makeup exams.

Grading

Final grades will be based on a composite score for the term's work that includes three common exams, the final exam, homework score, written lecture quiz and class participation. The approximate weights we expect to use in calculating the composite score are:

- 48 % for three Common Exams (16% for each)
- 33 % for Final Exam
- 12 % for Homework grade
- 7 % Algebra Quiz + Lecture Quizzes + Class participation

Extra credit may be given for active class participation, etc. Negative credit may be applied for lateness, creating noise, or otherwise interfering with class work.

The cutoff percentages for various letter grades will be in the range of 84.0% for A, 76.0 % for B+, 68.0% for B, 60.0% for C+, 52.0% for C, 44.0% for D, F below 44.0 %.

C or better grade is required to take further physics courses. If you get D in Physics 102, you cannot take the next level physics course.

Reading Assignments

The text readings are listed below. You should read the assigned sections of the text before the lecture covering that material.

Homework

It is almost impossible to succeed in this course without working a lot of problems: do the homework. Each student must download the weekly homework assignments from Mastering Physics online homework system, work the problems, and submit the solutions online before each assignment is due. Late work will not be accepted. See Course Materials section above.

Honor Code Violations or Disruptive Behavior

NJIT has a zero-tolerance policy for cheating of any kind and for student behavior that disrupts learning by others. Incidents will be immediately reported to the Dean of Students. The penalties for violations

range from a minimum of failure in the course with disciplinary probation up to expulsion from NJIT. Avoid situations where your own behavior could be misinterpreted, even if it is honorable. Students are required to agree to the NJIT Honor Code on each exam. Turn off all cellular phones, wireless devices, computers, and messaging devices of all kinds during exams. Please do not create noise in class that interferes with the work of students or instructors.

Help

Students are encouraged to meet with their instructor during their office hours. Physics Department also offers tutoring as posted on <http://physics.njit.edu/>, for which students do not need to sign up but just can go to open sessions provided in the schedule.

Learning Outcomes:

For this course, you can expect to be assessed on the following learning outcomes:

1. Recall the definitions and relationships involving position, velocity, speed, acceleration, vectors, Newton's Laws, circular motion, free-body diagrams, friction, work, energy, linear and angular momentum, torque, angular velocity and acceleration, and gravitation.
2. Apply the equations governing 1-D and 2-D constant acceleration to mechanical systems for various initial conditions. Calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
3. Comprehend the meaning of the equations governing net force and acceleration (Newton's Laws), and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship. Understand the extension of these equations to rotational motion, and gravitation.
4. Generalize the concepts underlying the equations of motion, such as work, kinetic and potential energy, conservation of energy, and equilibrium.
5. Comprehend the meaning of equations governing momentum, impulse, and collisions. Apply the equations governing momentum, impulse, and collisions mechanical systems for various initial conditions. Understand under what conditions momentum is conserved and how to use this relation to calculate unknown quantities based on physical relationships, initial conditions, and known quantities.
6. Understand the extension of linear motion equations to rotational motion. Comprehend the meaning of the equations governing rotational motion and acceleration, and be able to manipulate them in conjunction with a free-body diagram to obtain any desired quantitative relationship.

2019 Fall Course Schedule for Phys 102-005 and 007

Dates	Lecture Topics	Text Reading
9/3 Tu, 9/6 Fri	Math Review, Introduction Measurement and Units	Appendix A-4, Ch 1, Sec 1-6
9/10 Tu, 9/13 Fri.	Motion in One Dimension	Ch 2, Sec 1-8
9/17 Tu, 9/20 Fri, 9/24 Tu	Vectors and Two-Dimensional Motion	Ch 3, Sec 1-6
9/27 Fri, 10/1 Tu	The Laws of Motion - Forces and Newton's Laws	Ch 4, Sec 1-5
10/4 Fri, 10/8 Tu	The Laws of Motion - Applications of Newton's Laws	Ch 4, Sec 6-8
10/9 W	Common Exam 1 (4:15-5:45pm)	Ch. 1 - Ch.4.5
10/11 Fri	Circular motion	Ch. 5, Sec. 1-4
10/15 Tu, 10/18 Fri	Energy -Work, Kinetic Energy, Work-Energy Theorem	Ch. 6, Sec. 1, 3
10/22 Tu, 10/25 Fri	Energy -Potential Energy, Mechanical Energy, Energy conservation, Power	Ch. 6, Sec. 4-7, 9, 10
10/29 Tu, 11/1 Fri	Momentum and Collisions -Momentum, Impulse, Conservation of Momentum	Ch. 7, Sec. 1-3
11/5 Tu	Momentum and Collisions -Collisions	Ch 7, Sec. 4-8, 10
11/6 W	Common Exam 2 (4:15-5:45pm)	Ch. 4.6-4.8, Ch. 5.1-5.4, Ch.6.1-6.10
11/8 Fri, 11/12 Tu	Rotational Motion, Rotational Dynamics I	Ch 8, Sec 1-3
11/15 Fri, 11/19 Tu, 11/22 Fri	Rotational dynamics II	Ch.8, Sec. 4-8
11/27 W (Fri. schedule), 12/3 Tu	Static Equilibrium	Ch. 9, Sec. 1-4
12/4 W	Common Exam 3 (4:15-5:45pm)	Ch. 7, Ch. 8
12/6 Fri, 12/10 Tu	The Law of Gravity	Ch 5, Sec. 5-8
Date to be announced	Final Exam	Everything learned in class

*** The professor will discuss changes to the syllabus during class if they arise.**

Fall 2019 Calendar (some important dates)

Sept 3	Tuesday	First Day of Classes
Sept. 13	Friday	Last Day to Add / Drop Class 100% Refund for Full or Partial Withdrawal
Sept. 16	Monday	90% Refund for Full or Partial Withdrawal
Sept. 30	Monday	50% Refund for Full Withdrawal
Oct. 21	Monday	25% Refund for Full Withdrawal
Nov. 11	Monday	Last Day to Withdraw
Nov. 26	Tuesday	Thursday Classes
Nov. 27	Wednesday	Friday Classes
Nov. 27 – Dec. 1		Thanksgiving Recess
Dec. 11	Wednesday	Last Day of Classes
Dec. 12 – 13		Reading Days
Dec. 14 – 20		Final Exams
Dec. 22	Sunday	Final Grades Due

Physics 102_003

Tuesday 2:30-3:50 (CULM. LECT. 2)

Friday 1-2:20 (Culm. 110)

Physics 102_001

Tuesday 2:30-3:50 (CULM. LECT. 2)

Friday 8:30-9:40 (Tier. 107)

Physics 102 Common Exams

Wednesday 4:15 - 4:45 10/09/19; 11/06/19; 12/04/19
